The recent action of our wors if ful County Court as regards taxation generally, and school interests specially, has been the subject of universal comment. discussion and denunciation. It is not our purpose to denounce in what we shall say of that action it has passed of record, and must stand the test of future scrutiny and availibility intended to at tain. We do not endorse the action referred to, and shall briefly give some few reasons in support of our position of non-indorse ment. First, the rate of taxation as fixed at ten cents on the one hundred dollars is not sufficient to carry on the legitimate expenses of the county, and secondly. we are unqualifiedly opposed to plundering the schools of the revenue derived from tax on polls. In the year 1876 the school tax of this county in aggregate was \$8,428.59; in detail the schools should have recovered, if all tax-

case), \$2,395.40 From poll tax, From property tax, 1,000,00 From State about

es assessed should have been col-

lected (which is not however the

The property tax at that time was twenty cents on the one hun dred dollars, showing an aggre gate applied to schools as above stated, \$5,983.19, reducing rate to ten cents on the one hundred dol lars leaves for school purposes derived from property tax just half the '76 amount, \$2,516.591 The court during the year 1870 allowed the application of the entire poll tax assessed for county purposes to be applied in the support and maintenance of our school system; that allowance was in round numbers from the county \$800,00; by the late action that amount is taken from the schools and aplied to other county purposes, thus reducing the school support that amount and also a property reduction of half. So it appears our schools' teachers and scholars have a gloomy prospect during the the year to come The above is a simple unvarnished statement of action cur condition and prospects to maintain

our schools and educate our rising generation. We have shown above the facts as they exist. We started out with the declaration that we did not intend to denounce, but could not endorse such action by our dollars in the treasury, a few thousand dollars yet due and un collected, which would have swelled the county surplus under old assessment at least into respectabla proportions, by which means our muddy roads and bridgeless streams, our empty school houses and untutored youths might have parent's poll tax. We owe to the able, rising generation something and if unable to give wealth, let us give something more enduring

A distinguished physician of New York says:
"It is asionishing how universally Dr.
Tutt's Pills are used. In my daily rounds,

hear of them not only among the poor, but their virtues are horned from the man-zions of the wealthy and refined. Know-ing the inventor from his long connection with the medical profession, I have great confidence in their morits, and of late have often prescribed them with the happiest results in cases where I desired to make a de-

cided impression on the liver." Dr. Tait has been enguged in the practice of medicine thirty years, and form long line wandcanemetrator of anatomy in the Medical College of Georgia, hence, purchassuing his Pills have the guarantee that they are prepared as scientific principles. Ayer's Ague Cure,

For Fover and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

This is a compound remody, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fover and the concomitant disorders. Such an emely the necessities of the people in malari-ous districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittants is, that it contains no quinine or mineral, and those who take it are free from mineral, and those was taken in a danger of quinism or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disrders, and so unvarying has been its success that it has gained the reputation of being infalli-ble. It can, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South, which, once broken up by it, do not return until the discuso is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Ca-tarrh, Asthma, Palpitation, Splenic Affections, Hysterica, Pain in the Bowels, Colle, Paralysis, and derangement of the Stomach, all of which become intermittent or periodical, have no speedier remedy than AYER'S AGUE CURE, which cures them all allke, and protects the system from future attacks. As a preventive, it is of intense service in those communities where Fever and Ague preveils, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulares this organ into healthy activity, and produces many remarkable cures where other medicines

DR. C. MOLANE'S CELEBRATED LIVER PILLS, FOR THE STRE OF

Hepatitis or Liver Complaint, DYSPETSIA AND SICK KEADACHE.

Syreptoms of a Diseased Liver.)AlN in the right side, under the I edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone. something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he districts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body,

after death, has shown the LIVER to have been extensively deranged. AGUE AND FEVER. DR. C. MCLANE'S LIVER PULS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A
